FOREWORD

The 2000 Edition of the North Carolina Pesticide Report represents a revision of previous issues. By elaborating on the purpose of this report, by adding new material, and by better defining the substances listed, we attempted to reflect in a more meaningful manner, the information collected during the 2000 calendar year. We hope that more readers will be able to use it effectively.

This will acknowledge and express our appreciation to the following people who made significant contributions to the contents and preparation of this Pesticide Report: **Pesticide Section** - Margaret D. Broome, Betty H. Griffin, Eleanor F. Lipscomb, Sharon L. Pulley and Laura L. Stover, *Processing Assistant III's*; Jan L. Culbreth, Amy D. Disbennett, Sandi H. Cummings and Ann Vaughn, *Office Assistant IV's*; Amy P. Bissette, *Administrative Secretary III*; Lorrie C. Gay and Michael V. Williams, *Information Processing Technicians*; Flo S. Lamphier, *Administrative Officer I*; James W. Burnette, Jr., *Pesticide Administrator*; Julie A. Haigler, *Deputy Pesticide Administrator*; Sharron A. Stewart, *Deputy Pesticide Administrator*; John E. Hunter, III, *Regulatory Liaison*; L. Lee Davis, *Registration Manager*; Dr. Colleen M. Hudak, *License, Certification & Outreach Manager*; J. How to Use This Report

Considerable time and effort has gone into editing and organizing this 2000 edition of the Pesticide Report. Every section has been updated, new information added as necessary, and details expanded to make this Report a more complete and up-to-date reference as to the sale and use of pesticides in North Carolina. In this Pesticide Report you will find:

Introduction

The Introduction describes the development of laws and regulations governing the sale and use of pesticides in North Carolina. It also refers to certain divisions in the North Carolina Department of Agriculture & Consumer Services that perform key roles in regulating and controlling the sale and use of pesticides in this State.

North Carolina Pesticide Law of 1971 and Adopted Regulations (As Amended through 1998)

This section presents a brief abstract of the North Carolina Pesticide Law of 1971. It also shows how and where to obtain a complete copy of the Law and the Regulations adopted by the North Carolina Pesticide Board pursuant to this Law.

Pesticide Board and Pesticide Advisory Committee

This section presents a brief description of the duties and composition of the North Carolina Pesticide Board and North Carolina Pesticide Advisory Committee.

Licensed Pesticide Dealers, 2000

This section is a directory of the names and counties of Pesticide Dealers licensed to sell restricted use pesticides in North Carolina during 2000.

Licensed Pesticide Aerial Applicators, 2000

This section is a directory of the names and counties of Aerial Pesticide Applicators licensed in North Carolina for the 2000 calendar year.

Licensed Pesticide Ground Applicators, 2000

This section is a directory of the names and counties of Ground Pesticide Applicators licensed in North Carolina for the 2000 calendar year.

Licensed Pesticide Public Operators, 2000

This section is a directory of the names and counties of Public Operators licensed in North Carolina to apply pesticides for municipal, county, state, and/or federal governments for the 2000 calendar year.

Licensed Pest Control Consultants, 2000

This section is a directory of the names and counties of Pest Control Consultants licensed in North Carolina for the 2000 calendar year.

NOTE. *Individually requested and tailored lists of registrants, dealers, applicators or consultants are available by contacting the Pesticide Section at (919) 733-3556. A nominal printing charge may apply.*

Definitions Adopted

This section explains definitions that were adopted for reporting the analytical results of pesticides sampled by pesticide inspectors throughout the state and analyzed by the Department's laboratories.

Table I

Table I gives the analytical results of pesticides sampled and analyzed for their formulations. Company name and address are those listed on the product label when it was purchased in the marketplace.

Table II

Table II gives the results of disinfectants tested for their label guarantee to kill various microorganisms. Here again, company name and address are those listed on the product label when it was purchased in the marketplace.

Table III

Table III is an alphabetical listing of the names and addresses of manufacturers and/or distributors that were found to have unregistered or misbranded products in the marketplace during 2000.

Summary of Regulatory Activities Performed Under the North Carolina Pesticide Law of 1971

This section presents a summary of the total numbers of manufacturers who registered pesticides in North Carolina; pesticide formulations registered; pesticides examined; stop-sale, stop-use, or removal orders issued; licenses issued; and equipment inspections during 2000.

Introduction

The term "Pesticide" covers a large number of materials and mixtures intended for destroying, controlling, or repelling pests such as insects, weeds, and other noxious plants, predatory animals and birds, soil-infesting pests such as nematodes, algae, snails, and bacteria. Other examples are disinfectants, antiseptics, and fungicides for use other than on living man or other animals, defoliants, various repellents, fly paper, and other adhesive products whose action goes beyond simple mechanics, moth proofers, wood preservatives other than common paints, mildew controls, and seed fumigants.

An adequate and readily available supply of many of these products is essential in the economical production of feed and fiber crops. The preservation of many products in storage and the control of domestic and industrial pests which affect both the health and welfare of human beings and animals are like-wise dependent on such materials.

While the development and distribution of various pesticides to serve the needs are important, provisions must be present to protect the public. During the years 1947 through 1971, it was the purpose of the economic poisons law (North Carolina Insecticide, Fungicide, and Rodenticide Act of 1947, G.S. 4A, Chapter 106) to protect the public from adulterated, misbranded, worthless, and dangerous products, and legitimate manufacturers from unscrupulous competition.

During the years 1953 through 1971, the aerial application of pesticides was regulated by the North Carolina Aerial Crop Dusting Law, G.S. 4B, Chapter 106. The Law and the regulations promulgated thereunder, in summary, required the registration and licensing of contractors and aviators who engaged in the custom application of pesticides by aircraft in North Carolina. The validity of a license was further restricted to the period of time that coverage by liability bond or insurance for damage by aircraft was in force.

During 1969, the North Carolina General Assembly through House Resolution 1392 directed the Legislative Research Commission to study the laws regulating pesticides in N.C. and report its findings and recommendations to the 1971 General Assembly. As a result of the findings and recommendations of the Commission, the North Carolina Pesticide Law of 1971 was adopted.

The N.C. Pesticide Law of 1971 established the North Carolina Pesticide Board as the governing body for the programs of pesticide management and control set forth in the Law. Provisions for regulating the use, application (aerial and ground), sale, storage, disposal and registration of pesticides are set forth in the Law.

The Law provides for the adoption of a list of restricted use pesticides and requires the licensing of all pesticide dealers who sell restricted use pesticides directly to users. Pesticide applicators and consultants are also subject to licensing requirements. Private pesticide applicators may be required to be certified or recertified in order to purchase, use, and supervise use of restricted use pesticides in agricultural commodity production.

The Commissioner of Agriculture is responsible for administering and enforcing the Law and all rules and regulations adopted by the Board.

Each brand or grade of pesticide must be registered with the North Carolina Department of Agriculture & Consumer Services before it can be legally offered for sale in the State. A \$30.00 registration fee for each brand or grade must accompany each Application for Registration. In addition to the registration fee, an annual environmental assessment must be paid for each brand or grade to be registered in North Carolina. The assessment shall be \$50.00 if the applicant's gross sales of the pesticide in this state for the preceding 12 months for the period ending September 30th were more than \$5,000.00 and \$25.00 if gross sales were less than \$5,000.00. This assessment must accompany the \$30.00 registration fee in order for the registration to be complete.

A state-wide inspection service will be maintained to investigate incidents involving pesticide misuse and to implement programs to enhance compliance to the Law and regulations. In addition to product registration and applicator licensing programs, the Pesticide Section of the Food and Drug Protection Division will implement programs as authorized by regulation pertaining to the quality of formulated pesticides, the storage, disposal, and use of pesticides. The Department will maintain analytical laboratories to conduct analysis of official samples obtained for regulatory purposes.

Brief of the North Carolina Pesticide Law of 1971

North Carolina Pesticide Board

Commissioner of Agriculture, Raleigh, N.C.

North Carolina Pesticide Advisory Committee

Governing Body

Administrative
and Enforcement

Assists the Board and
Commissioner in an
advisory capacity

Restricted Use
Pesticides

Any pesticide may be designated as a "restricted use pesticide" upon the grounds that in the judgment of the Board it is so hazardous or injurious to persons, pollinating insects, animals, crops, wildlife, lands, or the environment that additional restrictions on its sale, purpose, use, or possession are required. Restricted Use Pesticides include any pesticide required by the Environmental Protection Agency to bear the designation on its labeling "Restricted Use Pesticide." (Restricted Use Pesticides have been established by regulation.)

The Board may require certification and recertification of private pesticide applicators and charge a fee of up to \$10.00. The current fee is established by regulation at \$6 for a three-year certification.

Private Applicator
Certification
Requirement

All pesticide dealers who sell restricted use pesticides must be licensed. Application for a pesticide dealer's license must be accompanied by a nonrefundable fee of \$30. All licenses shall expire on December 31 of the year for which they are issued. The license may be renewed annually upon application to the Department of Agriculture and Consumer Services, accompanied by a non-refundable fee of \$30 for each license, on or before the first day of January of the calendar year for which the license is issued. Each applicant must demonstrate upon written, or written and oral, examination his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide dealer; and his knowledge of the laws and regulations governing the use and sale of pesticides.

Pesticide Dealer
Licensing Requirement

No person shall engage in the business of pesticide applicator within North Carolina unless he is licensed annually by the Board. Each license application shall be accompanied by a nonrefundable fee of \$30 for each applicator's license and an additional \$10 for each aircraft to be licensed. A pesticide applicator is defined as any person who owns or operates a pesticide application business or who provides, for compensation, a service that includes the application of pesticides upon the lands or properties of another; any public operator; any golf course operator; any seed treater; any person engaged in demonstration or research pest control; and any other person who applies pesticides for compensation and is not exempt from this definition. It does not include:

Pesticide Applicator
Licensing Requirement

- a. Any person who uses or supervises the use of a pesticide
 - (i) only for the purpose of producing an agricultural

commodity on property owned or rented by him or his employer, or (ii) only (if applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person, or (iii) only for the purposes set forth in (i) and (ii) above.

- b. Any person who applies pesticides for structural pest control, as defined in the North Carolina Structural Pest Control Law (G.S. Chapter 106, Article 4C.)

Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide applicator or public operator. In addition, to be licensed as a pilot, a person must have 125 hours and one year's flying experience as a pilot in the field of aerial pesticide application.

No person shall perform services as a pest control consultant without first procuring from the Board a license. The application for a license shall be accompanied by an annual nonrefundable fee of \$30. A pest control consultant is defined as any person who, for a fee, offers or supplies technical advice, supervision, or aid, or recommends the use of specific pesticides for the purpose of controlling insects, plant diseases, weeds, and other pests, but does not include any person regulated by the North Carolina Structural Pest Control Act. Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide consultant. An applicant for a pest control license must possess a Ph.D., master's, or bachelor's degree in an agricultural or biological science from an accredited college or university with a minimum of 30 semester hours or 45 quarter hours of credit in subject areas pertinent to the category in which the applicant seeks to obtain a license. Emphasis of study must include insect, plant, bacterial, and fungal pests, as applicable to the category, and integrated pest management.

No person shall handle, transport, store, display, or distribute pesticides in such a manner as to endanger man or his environment.

Every pesticide prior to being distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State shall be registered and such registration shall be renewed annually. Each manufacturer, distributor, or registrant of a pesticide shall supervise the activities of any employee or agent to prevent the making of deceptive or misleading statements about a pesticide. It shall be unlawful for any person to distribute, sell, or offer for sale any restricted use pesticide to any dealer who does not hold a valid N.C. Pesticide Dealer License.

A registration fee of \$30 for each brand or grade of pesticide is required. An additional \$200 delinquent registration penalty shall be assessed against the registrant

**Pest Control
Consultant
Licensing
Requirement**

**Handling, Storage,
and Disposal of
Pesticides**

Registration

**Registration Fee
and Delinquent
Penalty**

for each brand or grade of pesticide marketed in North Carolina prior to registration.

An annual Pesticide Environmental Trust Fund assessment fee is required for each brand or grade of pesticide registered. This fee is either \$25.00 or \$50.00, based on gross sales of the pesticide within the State for the previous year. The assessments provide funding for agromedicine efforts at East Carolina University, North Carolina State University, and North Carolina A&T University and for pesticide environmental programs administered by the N.C. Department of Agriculture & Consumer Services.

Registration is subject to refusal or cancellation for cause and upon hearing.

Any brand or grade found to be deficient or excessive in active ingredients, misbranded, adulterated, or not registered is subject to "Stop Sale, Stop Use or Removal Orders."

The Pesticide Board may assess a civil penalty of not more than \$2,000 against any person who violates or directly causes a violation of any provision of this Article or any rule adopted pursuant to this Article. In determining the amount of any penalty, the Board may consider the degree and extent of harm caused by the violation and the cost of rectifying the damage caused by the violation.

Notwithstanding any other provision of this Law, the maximum penalty which may be assessed under this section against a "private pesticide applicator" is \$500 and such penalties may be assessed only for willful violations.

Any person who shall be adjudged to have violated any provision of the Law, or any regulation of the Board adopted pursuant to this Law, shall be guilty of a Class 2 misdemeanor and for each violation shall be liable for a penalty of not less than \$100 or more than \$1,000 or shall be imprisoned for not more than 60 days, or both. In addition, if any person continues to violate or further violates any provision of this Article after written notice from the Board, the court may determine that each day during which the violation continued or is repeated constitutes a separate violation subject to the foregoing penalties.

NOTE: Copies of the North Carolina Pesticide Law of 1971, as amended through 1998, may be obtained upon request to the Pesticide Section, North Carolina Department of Agriculture & Consumer Services, P.O. Box 27647, Raleigh, North Carolina 27611. Copies of the Regulations adopted by the North Carolina Pesticide Board may be requested from the same source. Both documents are also available on the Internet at www.ncagr.com/fooddrug/pesticid.

North Carolina Pesticide Board

The North Carolina Pesticide Board is a seven-member, governor-appointed Board charged with the duty of governing pesticide management and control as set forth in the North Carolina Pesticide Law of 1971. The members represent different sectors of the regulated public. Members are appointed from the North Carolina Department of Agriculture & Consumer Services (1), the Department of the Environment and Natural Resources (2) [the State Health Director or the State Health Director designee and an individual representing an environmental protection agency], the agrichemical industry (1), the farm population (1), nongovernmental conservationists (1), and an at-large member representing the general public.

The Board adopts rules and regulations and makes policies for the programs outlined in the NC Pesticide Law of 1971. Board members serve staggered four year terms. Appointments to fill vacancies in the Board are of individuals having the same credentials as the predecessor.

The Pesticide Advisory Committee

The North Carolina Pesticide Law of 1971 establishes a twenty-member Pesticide Advisory Committee to advise the NC Pesticide Board on technical questions and on the development of rules and regulations. The Advisory Committee is composed of three practicing farmers, one conservationist (at-large), one ecologist (at-large), one pesticide industry representative, one agribusiness representative (at-large), one local health director, three members of the North Carolina State University College of Agriculture and Life Sciences, one member from the North Carolina Department of Agriculture & Consumer Services, one member from the North Carolina Department of Environment and Natural Resources, the State Health Director, one representative of a public utility or railroad which uses pesticides, one member from the from the Board of Transportation, one member from the North Carolina Aviation Association, one member of the general public (at-large), one member actively engaging in forest pest management, and one member representing the Division of Solid Waste Management of the Department of Environment and Natural Resources. Members of the committee serve at the pleasure of the Board.

DEFINITIONS ADOPTED

Table I lists the analytical results of formulation samples based on the following:

“PASSED” - signifies that all active ingredients were found to be present at acceptable levels based on the label guarantee.

“FAILED DUE TO DEFICIENT ACTIVE INGREDIENT” - signifies that one or more active ingredients fell significantly below the guarantee. Such products are placed under “Stop Sale Order” and are removed from the market place.

“FAILED DUE TO EXCESSIVE ACTIVE INGREDIENT” - indicates a significant excess of one or more active ingredients. Since such formulations could be harmful to the user and/or result in excessive residues, these products are placed under “Stop Sale Orders” and are removed from the market place.

Table II lists the analytical results of microbiological samples based on the following:

“PASSED” - indicates that the product was effective in killing the specific microorganisms guaranteed by the product label.

“FAILED” - indicates that the product was ineffective in killing the specific microorganisms guaranteed by the product label or that bacterial contamination of the product was found.

Table III lists manufacturers found to have unregistered or misbranded pesticides based on the following:

“UNREGISTERED” - signifies that the product was not registered at the time it was found by a pesticide inspector in the marketplace. Any such product is required to be registered prior to release from a “Stop Sale Order.” A delinquent registration penalty is also assessed against the manufacturer or the distributor.

“MISBRANDED” - indicates that the labeling of a pesticide product failed to conform to federal and/or state requirements.

Summary of 2000 Regulatory Activities Performed Under the N. C. Pesticide Law of 1971

PESTICIDE REGISTRATIONS

Total Number of Registrants	1,255
Registrants from North Carolina	121
Pesticide Products Registered	12,736
Section 24(c) registrations	5
Section 18 exemptions granted	4

COMPLIANCE MONITORING

Inspections	14,011
Physical Samples Submitted	2,494
Formulation	1,579
Disinfectants	411
Investigation	504
Analytical Determinations Made	9,383
Product Registration Checks	9,373

REGULATORY ACTIONS

Stop-Sale, Stop Use, Removal Orders	363
License or Certification Suspensions	5
License Revocations	0
Civil Penalties	52
Delinquent Registration Penalties	131

LICENSES ISSUED

Pesticide Dealer Licenses	795
Ground Pesticide Applicator Licenses	8,128
Aerial Pesticide Applicator Licenses	197
Public Operator Licenses	3,881
Pest Control Consultant Licenses	108
Total Pesticide Licenses	13,109

CERTIFIED APPLICATORS

Private Pesticide Applicators	24,186
